

First Wintry Precipitation of the Season Tonight

OVERVIEW

- A quick moving coastal low will bring light snow and ice across the interior tonight.

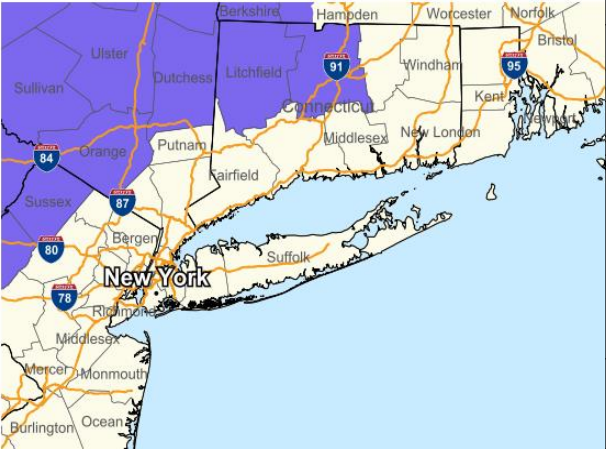

HAZARDS & IMPACTS

- **Total Snowfall:** Up to 1" across northern and western Orange County tonight. A coating is possible for the remainder of the Lower Hudson Valley, interior NE NJ and inland S CT. This could result in slippery road conditions overnight.
- **Ice Accumulation:** A light glaze of ice across northern and western Orange County. Conditions will be slippery on any untreated and elevated surfaces which could impact overnight travel.
- **Temperatures:** Lower 30s tonight, with temperatures slowly rising to above freezing everywhere by 7 am or earlier.

Winter Watches Warnings and Advisories

■ Winter Weather Advisory

NWS ALERTS

- **Winter Weather Advisory :** Orange County

FORECAST CHALLENGES

- Wintry precipitation generally starts around 7 pm. A changeover to plain rain is expected by 7 am Wednesday or earlier for Orange County.
